Aim to acquire active traders and increase margin balance share and revenue

→ Solicit existing customers to open margin accounts by providing website contents and campaigns

Margin balance share is the percentage out of 5 major online brokers (calculated by each published resource)

Introduction of competitive trading tool helps acquire active traders and revenue share

(1) Maintain revenue share

Keep supporting investors' asset building with long-diversified investment method

- Mutual funds: Substantially free commission for purchase in NISA accounts; Offering funds invested in new

categories, uniquely structured and available only in Monex, Inc.

- IPO : Offering IPO services to retail customers. 9 underwritings in 1Q (64% of participation): 4th

most number of underwritings

-Seminars : Held productive seminars for from novice to professional traders. 40 seminars were held in 1Q

Total viewers: 30,374 (sum of participants at each seminar)

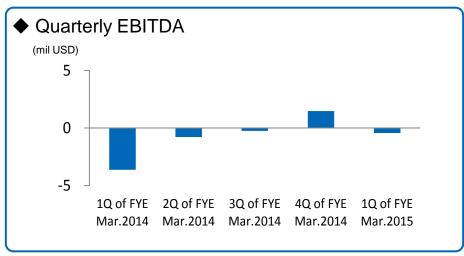

(2) Plan for expanding commission revenue

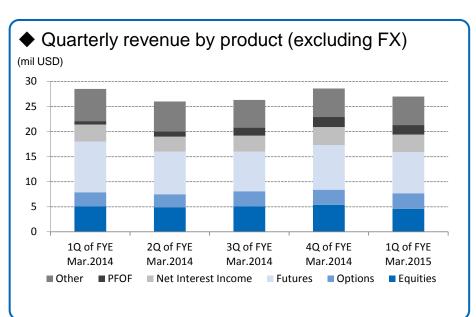

Aim to expand revenue share by acquiring active traders

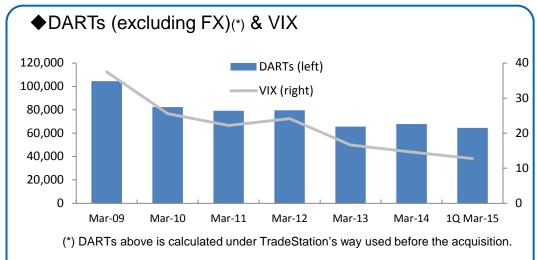

- Develop a trading platform for active traders
 - : Will launch a trading platform developed by the group company, TradeStation, which is highly appreciated by active traders in the U.S. and offered through Shinhan Investment Corp., a member of one of the biggest financial groups in Korea
- Expand promoting to increase margin account opening
 - : In order to increase margin account opening by existing customers with securities accounts, we will provide special website promotions or campaigns only for existing customers

Active traders trade less due to historically low volatility

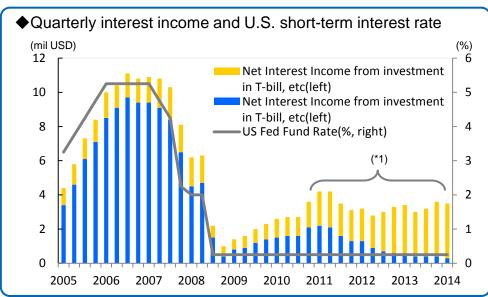

- Historically low volatility keeps active traders' trading volume low
- Trading volume of active traders, TradeStation's main customer base, highly depends on volatility: higher VIX more trades, lower VIX less trades
- Though VIX is at the historical low since 2007, just before Lehman Brothers' bankruptcy in the U.S., EBITDA is at about breakeven point
- Achieved EBITDA in black in 4Q FYE March 2014, and now aim to make monthly net income black by March 2015

Segment Performance Highlights U.S. Segment (2)

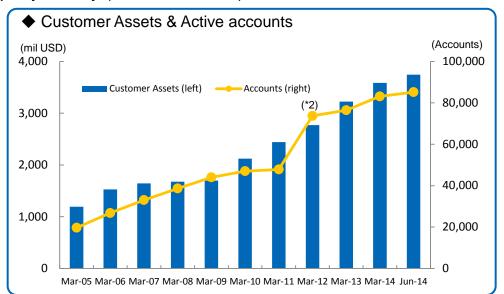

Customer assets and accounts, the sources of financial income, have increased; we expect higher interest income as interest rate rises

- ■Net interest income composed of : (A) interest income from investment management and
 - (B) net interest income from loan management
 - (A) Depositing / investing of corporate cash and customer segregated cash in short-term deposits or U.S. Treasuries (segregated balance: approx. USD1.7 billion)
 - →high correlation between interest income from investment management and the U.S. short-term interest rate (higher rate, more revenue)
 - (B) Net interest income from margin and stock lending transactions
- Steady increase in active accounts (85,217) and customer assets (USD 3.745 billion, QoQ 4% increase) The number of new accounts in 1Q is the 3rd best in company history (5,002 accounts)

(*2) The number of accounts after Mar. 2012 includes accounts of IBFX acquired in Nov. 2011

Segment Performance Highlights U.S. Segment (3)

- V. Group Overview

Globally pursues "mid- and long-term revenue growth" and "fixed-type cost reduction"

"Global Vision" is a mid- and long-term business strategy which Monex Group, Inc. has promoted since FYE March 2012 with an aim towards "Globalization" and "Internalization"; not only to globally reduce the fixed-type costs but to increase mid- and long-term revenue

- 1. Mid- and long-term revenue growth
 - → develop competitive products and services with various resources that Monex has
- 2. Continuing reduction of fixed-type costs
 - → continue to fulfill fixed-type cost reduction plan by FYE March 2018

■ Mid- and long-term revenue growth

- Differentiated products & services among group companies are developed and offered to retail investors
- Diversify revenue sources by expansion of B2B business utilizing Monex's own internalized system
- Diversify revenue sources by geographical expansion of businesses

■ Fixed-type cost reduction by system internalization

- TradeStation develops technology which will reduce a consolidated system related costs
- Integrated various trading information services in Japan and information usage fee will be reduced

Target (announced in July 2013)

Aims to reduce fixed-type costs (*1) of 2.3 billion yen (*2) a year by FYE Mar. 2018 compared to the basis for comparison (*3)

SG&A basis for comparison 34.4 billion yen → 32.1 billion yen (FYE Mar. 2018) (-2.3 billion yen, -6.7%)

Fixed-type cost basis for comparison 24.5 billion yen → 22.2 billion yen (FYE Mar. 2018) (-2.3 billion yen, -9.4%)

- (*1) Fixed-type cost: the sum of (a) communication, freight & information expenses, (b) compensation & benefits, (c) rental & maintenance, (d) data processing & office supplies and (e) amortization & depreciation
- (*2) Assumed no change in the amount of non-costs for FYE Mar. 2018
- (*3) Basis for comparison: (actual figure of 4Q of FYE Mar. 2013) multiplied by 4
