Launch of "Easy Asset Management" service available via the "d Payment app"

It's easy to open an account and start investing—even if you're a beginner!

NTT DOCOMO, Inc. (headquarters: Tokyo; President and Chief Executive Officer: Yoshiaki Maeda; hereinafter, DOCOMO) and Monex, Inc. (headquarters: Tokyo; Member of the Board, President and Executive Director: Yuko Seimei; hereinafter, Monex) have launched a new asset-building service called "Easy Asset Management" (hereinafter, the service), which allows users to easily open a Monex general securities account and set up periodic purchasing service for mutual funds via the "d Payment®" app, starting Thursday, July 31, 2025.

Since entering into a capital and business alliance in January 2024, DOCOMO and Monex Securities have been working to provide convenient and user-friendly services for customers, including the launch of "d Card® Credit Card Periodic Purchasing Service," which allows customers to make regular investments in mutual funds using their DOCOMO credit cards, and the integration of securities trading accounts with "d Account®."

As part of further collaboration, we are launching the service that enables users to seamlessly complete everything from account opening and mutual fund applications to balance inquiries and redemptions — all through the "d Payment" app in as little as three minutes.

■ Key Features of This Service

(1) Easy account opening

We have adopted a simple and easy-to-understand design to ensure customers can start asset management without confusion, customers can easily apply for an account in as little as 3 minutes via the d Payment app. By using

information from applicant's d ACCOUNT, the need to manually enter personal details is reduced, allowing for a smoother application process. Entered information can be saved at each step along the way.

(2) Easy product selection

Customers can select products from “Easily Bundled Mutual Fund” or individual mutual fund products. “Easily Bundled Mutual Fund” offers three sets tailored to customers’ investment preferences: “Beginner Set” for those seeking to minimize risk, “Standard Set” for those prioritizing balance, and “Active Set” for those aiming for higher returns. These three types of set products allow first-time investors to purchase mutual funds without hesitation.

(3) Easy mutual fund application

Payment method and account type can be selected easily by choosing either “d Card” or “d Payment.” Customers can apply for mutual funds, simply by entering the periodic purchasing amount.

(4) Invest starting from 100 yen

The minimum monthly contribution amount is JPY100, and transactions can be made in JPY1 increments, allowing you to invest in mutual funds with small amounts.

(5) Earn d Points

Both d Payment Balance Savings and d Card Savings earn d Points based on the monthly contribution amount or the balance of eligible mutual funds. With d Card Savings, customers can earn up to 3.1% in points. By combining the “d Payment Balance Mutual Funds Purchasing Plan” — which allows you to make periodic purchasing in mutual funds using your d Payment balance as a payment method (0.5% point reward on amounts up to JPY50,000; maximum 250 points) — with the “d Card Investment Plan,” customers can earn point rewards on total investments of up to JPY150,000.
